

ANNUAL ANALYSIS OF TRAFFIC DATA

The Sugar Land Police Department conducts an annual analysis of all traffic data, accident crashes as well as violations at all red light camera intersections. This information is reported to the Texas Department of Transportation in October of each year.

The following table lists rear end crash data within the six (6) Red light camera intersections for the last five (5) years' reporting cycles (2012-2016):

	2012-2013	2013-2014	2014-2015	2015-2016	2016-2017	Totals	Avg.
Rear End	13	10	13	10	14	60	12
